

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office APR 13 1989

Returned to applicant for correction MAY 8 1989

Corrected application filed _____

Map filed JUL 7 1989

The applicant Don L. & Mary Lou Ellifritz

5070 E. Offenhauser Dr., of Winnemucca
Street and No. or P.O. Box No. City or Town

Nevada 89445, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is An Underground Source
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.00619 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet N/A

3. The water to be used for Quasi Municipal
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kinds of animals to be watered _____

(c) Other use (describe fully under "No. 12. Remarks") _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point within the NW¼ of the SE¼
Describe as being within a 40-acre subdivision of public
of section 26, T.36N., R.31E., M.D.B.&M, from - which point the center
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
of section 26 lies N 02°45'W, 877.8 feet.

6. Place of use 4 parcels within the S½ of section 26, T.36N., R.37E.,
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
M.D.B.&M.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drilled well, hydropneumatic pressure
State manner in which water is to be diverted, i.e. diversion structure, ditches and
tanks and water distribution system
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$12,000.00

10. Estimated time required to construct works 1 year
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use 3 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Quasi municipal use - 4 residential units (may be mobile homes
or conventional units) annual consumptive use is estimated to
be 1.46 MGA

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.00619 cubic feet per second, but not to exceed 1.46 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before April 19, 1991

Proof of completion of work shall be filed on or before May 19, 1991

Application of water to beneficial use shall be made on or before April 19, 1994

Proof of the application of water to beneficial use shall be filed on or before May 19, 1994

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed APR 16 1991

Proof of beneficial use filed MAY 11 1995

Cultural map filed _____

Certificate No. 14279 Issued 02-20-96

IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.
 State Engineer of Nevada, have hereunto set my hand and the seal of my
 office, this 19th day of April,

A.D. 19 90

[Signature]
 State Engineer

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use. The total combined duty of water under Permits 22800, Certificate 7400 and 53137 shall not exceed 34.8 acre feet annually.

This permit is issued for 1.46 million gallons for quasi-municipal purposes which will reduce the amount of land that can be irrigated under Permit 22800, Certificate 7400 to 7.58 acres.
